RE: Tomoka Hills Nonresidential Resubmittal – Small-scale Comprehensive Plan Amendment (SsCPA)
and Rezoning (Alachua County Tax Parcels # 03873-000-000 and 03873-001-000)

Dear Kathy:

Please find following items enclosed for review and approval of the above referenced projects:

- Application forms;
- Authorized agent affidavit;
- Legal Description;
- Deed, Property Appraiser Data Sheet, Tax Records;
- Neighborhood Meeting Materials;
- Justification Report; and
- Map Set of Project Site

These applications request (1) a SsCPA to the Future Land Use Map, amending the Future Land Use of the property from Agriculture to Community Commercial; and (2) a site-specific amendment to the official zoning atlas, amending the zoning of the property from Agriculture (A) to Community Commercial (CC). The intents of these requests are to allow for the development of nonresidential uses including new office space for Tower Hill Insurance. This site is also part of an ongoing master planning effort for the surrounding properties owned by Tomoka Hills Farms, Inc.

We trust you will find this submittal package is sufficient for review and approval. Please contact me at (352) 331-1976 or at craigb@chw-inc.com should you have any questions or require any additional information to complete your review.

Sincerely,
CHW

Craig Brashier, AICP
Director of Planning

City of Alachua Comprehensive Plan Amendment Application

FOR PLANNING USE ONLY

Case #: _____
Application Fee: \$ _____
Filing Date: _____ Acceptance Date: _____
Review Type: P&Z, CC

- ☐ Large Scale Comprehensive Plan Amendment (greater than 10 acres)
☒ Small Scale Comprehensive Plan Amendment (10 acres or less)

NOTE: It is the burden of the applicant to be familiar with the requirements of Chapter 163, Florida Statutes, which are related to Comprehensive Plan Amendments. Requirements for Comprehensive Plan Amendments may change with each Legislative Session. Please contact the Planning and Community Development Department if you need assistance with locating this information.

A. PROJECT

- Project Name: Tomoka Hills Office
- Address of Subject Property: N/A
- Parcel ID Number(s): 03873-000-000 and 03873-001-000
- Existing Use of Property: Vacant
- Existing Future Land Use Map Designation: Agriculture
- Proposed Future Land Use Map Designation: ~~Commercial~~ RESUBMITTED to propose Community Commercial
- Acreage: ±45.3

B. APPLICANT

- Applicant's Status ☐ Owner (title holder) ☒ Agent
- Name of Applicant(s) or Contact Person(s): Craig Brashier, AICP Title: Director of Planning
Company (if applicable): CHW Professional Consultants
Mailing address: 11801 Research Drive
City: Alachua State: FL ZIP: 32615
Telephone: (352) 331-1976 FAX: () e-mail: craigb@chw-inc.com
- If the applicant is agent for the property owner*:
Name of Owner (title holder): Tomoka Hills Farms, Inc.
Mailing Address: PO Box 147018
City: Gainesville State: FL ZIP: 32614-7018

* Must provide executed Property Owner Affidavit authorizing the agent to act on behalf of the property owner.

C. ADDITIONAL INFORMATION

- Is there any additional contact for sale of, or options to purchase, the subject property? ☐ Yes ☒ No
If yes, list names of all parties involved: _____
If yes, is the contract/option contingent or absolute? ☐ Contingent ☐ Absolute

D. ATTACHMENTS

- Statement of proposed change and maps which illustrate the proposed change.
- Urban Sprawl Analysis which evaluates as to whether the plan amendment incorporates a development pattern or urban form that achieves four or more of the following eight criteria:
 - Directs growth and development to areas of the community in a manner that does not adversely impact natural resources;
 - Promotes the efficient and cost effective provision or extension of public infrastructure and services;
 - Promotes walkable and connected communities and provides for compact development and a mix of uses at densities and intensities that support a range of housing choices and a multimodal transportation system;
 - Promotes conservation of water and energy;
 - Preserves agricultural areas and activities;

City of Alachua ♦ Planning and Community Development Department
PO Box 9 ♦ Alachua, FL 32616 ♦ (386) 418-6121

- (VI) Preserves open space and natural lands and provides for public open space and recreation needs;
 - (VII) Creates a balance of land uses based on demands of residential population for the nonresidential needs of an area; and,
 - (VIII) Provides uses, densities and intensities of use and urban form that would remediate an existing or planned sprawl development pattern or provides for an innovative development pattern such as transit oriented development or new towns.
3. Concurrency Impact Analysis which considers the impact on public facilities, including potable water, sanitary sewer, transportation, solid waste, recreation, stormwater, and public schools in accordance with Article 2.4.14 of the Land Development Regulations.
 4. Needs Analysis which demonstrates the necessity for the proposed increase in the proposed Future Land Use Map Designation. This analysis may consist, in whole or part, of a market impact study or real estate needs analysis.
 5. Analysis of Consistency with the City of Alachua Comprehensive Plan (analysis must identify specific Goals, Objectives, and Policies and describe in detail how the application complies with the noted Goal, Objective, or Policy.)
 6. A current aerial map of the property (may be obtained from the Alachua County Property Appraiser).
 7. Three (3) sets of labels for all property owners within 400 feet of the subject property boundaries – even if property within 400 feet falls outside of City limits. (Obtain from the Alachua County Property Appraiser).
 8. If the application includes any Future Land Use Map Designation which permits residential uses, Public School Student Generation Form.
 9. Legal description with tax parcel number.
 10. Proof of ownership.
 11. Proof of payment of taxes.
 12. **Fee.** Please see fee schedule for fee determination. No application shall be accepted for processing until the required application fee is paid in full by the applicant. Any necessary technical review will be billed to the applicant at the rate of the reviewing entity. The invoice shall be paid in full prior to any legislative and/or quasi-judicial action of any kind on the petition, appeal, or development application.

All 12 attachments are required for a complete application. A completeness review of the application will be conducted within five (5) business days of receipt. If the application is determined to be incomplete, the application will be returned to the applicant.

I/We certify and acknowledge that the information contained herein is true and correct to the best of my/our knowledge.

Warranty Deed

This Indenture, Made this 18th day of January, 2006 A.D., Between
William J. Shively

of the County of **Alachua**, State of **Florida**, grantor, and
Tomoka Hills Farms, Inc., a corporation existing under the laws of the
State of **Florida**
whose address is: **P.O. Box 147018, Gainesville, FL 32614**

of the County of **Alachua**, State of **Florida**, grantee.

Witnesseth that the GRANTOR, for and in consideration of the sum of

-----**TEN DOLLARS (\$10)**----- DOLLARS,
and other good and valuable consideration to GRANTOR in hand paid by GRANTEE, the receipt whereof is hereby acknowledged, has
granted, bargained and sold to the said GRANTEE and GRANTEE'S heirs, successors and assigns forever, the following described land, situate,
lying and being in the County of **Alachua** State of **Florida** to wit:

**Those certain lands as are more particularly described in the attached
Exhibit "A" which is made apart hereof by reference.**

Subject to taxes for 2006 and subsequent years.

Subject to restrictions and easements of record.

**This deed is being given by the grantor to a corporation which he owns
one hundred percent of the outstanding stock in and is a transfer of
unencumbered property to a corporation wholly owned by grantor and is
exempt from Florida Documentary Stamp Tax.**

**The grantor covenants and warrants that the above described property
is neither his homestead nor his residence.**

2207220

and the grantor does hereby fully warrant the title to said land, and will defend the same against lawful claims of all persons whomsoever.

In Witness Whereof, the grantor has hereunto set his hand and seal the day and year first above written.

Signed, sealed and delivered in our presence:

NEIGHBORHOOD MEETING NOTIFICATION

PN 21-0025.08

To: Neighbors of the NW 162nd Lane / NW 173rd Street Intersection
From: Craig Brashier, AICP
Date: 06 April 2022
RE: Neighborhood Meeting Public Notice

A Neighborhood Meeting will be held to discuss two applications on ±46 acres in the City of Alachua (Portions of Alachua County Tax Parcels # 03873-001-000 and 03873-000-000):

1. A Small-scale Comprehensive Plan Amendment (SsCPA) application requesting to change the site's Future Land Use (FLU) Classification from Agriculture to Commercial; and
2. A Rezoning application requesting to change the site's Zoning from Agriculture (A) to Commercial Intensive (CI).

The site is located generally on the east side of CR 235A and south of NW 162nd Lane.

Meeting Details:

Date: 20 April 2022
Time: 6:00 PM
Location: 11801 Research Drive, Alachua, FL, 32615
Contact: Craig Brashier, AICP
11801 Research Drive

Ukraine

Continued from Page 1A

pulled out only because their aggressor did not hear what they wanted to hear from them," he said, recounting what he described as the worst atrocities since World War II.

Over the past few days, grisly images of what appeared to be civilian massacres carried out by Russian forces in Bucha before they withdrew from the outskirts of Kyiv have caused a global outcry and led Western nations to expel scores of Moscow's diplomats and propose further sanctions, including a ban on coal imports from Russia.

Zelenskyy said that both those who carried out the killings and those who gave the orders "must be brought to justice immediately for war crimes" in front of a tribunal similar to what was used in postwar Germany.

Moscow's U.N. ambassador, Vassily Nebenzia, said that while Bucha was under Russian control, "not a single local person has suffered from any violent action." Reiterating what the Kremlin has contended for days, he said that video footage of bodies in the streets was "a crude forgery" staged by the Ukrainians.

"You only saw what they showed you," he said. "The only ones who would fall for this are Western dilettantes."

Associated Press journalists in Bucha have counted dozens of corpses in civilian clothes and interviewed Ukrainians who told of witnessing atrocities. Also, high-resolution satellite imagery from Maxar Technologies showed that many of the bodies had been lying in the open for weeks, during the time that Russian forces were in the town.

The dead in Bucha included a pile of six charred bodies, as witnessed by AP journalists. It was not clear who they were or under what circumstances they died. One body was probably that of a child, said Andrii Nebytov, head of police in the Kyiv region. One person had a gunshot wound to the head.

The chief prosecutor for the International Criminal Court at The Hague opened an investigation a month ago into possible war crimes in Ukraine.

Zelenskyy stressed that Bucha was only one place and that there are more with similar atrocities — a warning echoed by NATO Secretary-General Jens Stoltenberg.

"When and if they withdraw their troops and Ukrainian troops take over, I'm afraid they will see more mass graves, more atrocities and more examples of war crimes," he said.

Stoltenberg, meanwhile, warned that in pulling back from the capital, Russian President Vladimir Putin's military is regrouping its forces in order to deploy them to eastern and southern Ukraine for a "crucial phase of the war." Russia's stated goal is control of the Donbas, the largely Russian-speaking industrial region in the east that includes the shattered port city of Mariupol.

"Moscow is not giving up its ambitions in Ukraine," Stoltenberg said.

While both Ukrainian and Russian representatives sent optimistic signals following their latest round of talks a week ago, Russian Foreign Minister Sergey Lavrov said Moscow won't accept a Ukrainian demand that a prospective peace deal include an immediate pullout of troops followed by a Ukrainian referendum on the agreement.

In televised remarks Tuesday, Lavrov said a new deal would have to be negotiated if the vote failed, and "we don't want to play such cat and mouse."

Ukrainian officials said that the bodies of at least 410 civilians have been found in towns around Kyiv that were recaptured from Russian forces and that a "torture chamber" was discovered in Bucha.

Zelenskyy told the Security Council there was "not a single crime" that Russian troops hadn't committed in Bucha, and he likened their actions to those of the Islamic State group.

"The Russian military searched for and purposefully killed anyone who served our country. They shot and killed women outside their houses when they just tried to call someone who is alive. They killed entire families, adults and children, and they tried to burn the bodies," he said. They used tanks to crush civilians "just for their pleasure," he said.

On Tuesday, police and other investigators walked the silent streets of Bucha, taking notes on bodies that residents showed them. Survivors who hid in their homes during the monthlong Russian occupation of the town, many of them past middle age, wandered past charred tanks and jagged window panes with plastic bags of food and other humanitarian aid. Red

A woman walks near a damaged building Sunday in the eastern city of Kramatorsk, in the Donbas region of Ukraine, amid the Russian invasion. Since Russia announced it would focus its efforts on the "liberation" of Donbas, residents have lived in fear of a major military offensive. FADEL SENNA/AFP VIA GETTY IMAGES

Cross workers checked in on intact homes.

Many of the dead seen by AP journalists appeared to have been shot at close range, and some had their hands bound or their flesh burned.

The AP and the PBS series "Frontline" have jointly verified at least 90 incidents during the war that appear to violate international law. The War Crimes Watch Ukraine project is looking into apparent targeted attacks as well as indiscriminate ones.

U.S. Secretary of State Antony Blinken said the images from Bucha revealed "not the random act of a rogue unit" but "a deliberate campaign to kill, to torture, to rape, to commit atrocities." He said the reports of atrocities were "more than credible."

"Only non-humans are capable of this," said Angelica Chernomor, a refugee from Kyiv who crossed into Poland with her two children and saw the photos from Bucha. "Even if people live under a totalitarian regime, they must retain feelings, dignity, but they do not."

Chernomor is among the more than 4 million Ukrainians who have fled the country in the wake of the Feb. 24 invasion.

Russia has rejected similar accusations of atrocities in the past by accusing its enemies of forging photos and video and using so-called crisis actors.

As Western leaders condemned the killings in Bu-

cha, Romania, Italy, Spain and Denmark expelled dozens of Russian diplomats on Tuesday, following moves by Germany and France. Hundreds of Russian diplomats have been sent home since the start of the invasion, many accused of being spies.

Kremlin spokesperson Dmitry Peskov called the expulsions a "short-sighted" measure that would complicate communication and warned they would be met with "reciprocal steps."

The U.S., in coordination with the European Union and Group of Seven nations, will roll out more sanctions against Russia on Wednesday, including a ban on all new investment in the country, a senior administration official said, speaking on condition to discuss the upcoming announcement.

Also, the EU's executive branch proposed a ban on coal imports from Russia, in what would be the first time the 27-nation bloc has sanctioned the country's lucrative energy industry over the war.

The coal imports amount to an estimated \$4.4 billion per year.

EU Commission President Ursula von der Leyen denounced Moscow's "heinous crimes" around Kyiv.

NOTICE OF PUBLIC HEARING

The Alachua County Planning Commission will hold a public hearing Wednesday, April 20, 2022, at 6:00 pm or as soon thereafter as it may be heard. The meeting will be held in the John R. "Jack" Durance Auditorium, Room 209, 12 SE 1st Street, Gainesville, Florida to consider the following quasi-judicial zoning item:

ZOM-05-22 (Miller Electric PD Rezoning)

A request by Chris Gault of Gault Engineering, LLC, agent, for 4800 GCW, LLC owners, to rezone from the Residential/Professional (RP) zoning district to the non-residential planned development (PD) zoning district. The site has a future land use designation of Office/Residential (2 to 4 dwelling units/acre) and is approximately 5 acres, located on tax parcel number 07213-002-000 at 4800 SW 13th St.

This meeting will allow for in person participation only. The public may attend in person at 12 SE 1st Street, Gainesville, FL, Second Floor, Jack Durance Board Room.

COMMENTS/EVIDENCE

The public is encouraged to submit any written or photographic documents prior to the meeting to <https://growth-management.alachuacounty.us/PublicComment>.

No later than 7 (seven) calendar days prior to the hearing, an individual or entity wishing to participate as a party in a quasi-judicial public hearing must provide the County with a written request to be considered as a party. The request must include a factual basis for why the requestor believes that he or she should be allowed to participate as a party. Please send your requests to be considered a party to <https://growth-management.alachuacounty.us/PublicComment>.

The Planning Commission shall consider written requests for party status at the outset of the hearing and make a determination of which requesting individuals or entities qualify for party status in the hearing.

If an individual or entity intends to participate as a party and provide evidence, beyond testimony, at the public hearing, the individual or entity must provide electronic copies of all evidence to the appropriate County staff no later than 5 (five) calendar days prior to the hearing. Any evidence provided electronically will be entered into the record and provided to all identified parties.

If any accommodations are needed for persons with disabilities, please contact the Alachua County Equal Opportunity Office at least two business days in advance at (352) 374-5275 (voice) or (352) 374-5294 TDD users, please call 711 (Florida Relay Service). Printed materials are available in alternate format upon request.

All persons are advised that, if they decide to appeal any decision made at this public hearing or meeting, they will need a record of the proceedings and, for such purpose, they may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.

General Information: Staff report, application package and other materials of the above items will be available on Friday of the week preceding the meeting by visiting: <https://mapinfo.alachuacounty.us/development-projects/>. For further information call (352) 374-5249. Visit www.alachuacounty.us and click on the meetings tab on the homepage for the most up to date information.

NOTICE OF PUBLIC HEARING

Amendments to the Alachua County Comprehensive Plan

The Alachua County Local Planning Agency and Planning Commission will hold a public hearing Wednesday, April 20, 2022 at 6:00 pm or as soon thereafter as it may be heard. The meeting will be held in the John R. "Jack" Durance Auditorium, room 209, 12 SE 1st Street, Gainesville, Florida to consider the following amendment to the Alachua County Comprehensive Plan:

CPA-01-22 (Large Scale Comprehensive Plan Land Use Amendment)

A request by JBrown Professional Group, Inc., agent, for West End Golf Club, Inc., owner, for an amendment to the Alachua County Comprehensive Plan: 2019-2040 Future Land Use Map from a Recreational land use designation to a Low-Density Residential (1 to 4 dwelling units per acre) designation on portions of approximately 75.18 acres located on tax parcels 04333-001-000 and 04314-000-000 as well as associated Comprehensive Plan text amendments. This property has an address of 12830 West Newberry Road.

This meeting will allow for in person participation only. The public may attend in person at 12 SE 1st Street, Gainesville, FL, Second Floor, Jack Durance Board Room.

COMMENTS/EVIDENCE

The public is encouraged to submit any written or photographic documents prior to the meeting to <https://growth-management.alachuacounty.us/PublicComment>.

If any accommodations are needed for persons with disabilities, please contact the Alachua County Equal Opportunity Office at least two business days in advance at (352) 374-5275 (voice) or (352) 374-5294 TDD users, please call 711 (Florida Relay Service). Printed materials are available in alternate format upon request.

In addition to any other comments, interested persons are invited to submit comments on whether the proposal will have a significant impact on the cost of housing.

All persons are advised that, if they decide to appeal any decision made at this public hearing or meeting, they will need a record of the proceedings and, for such purpose, they may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.

General Information: Staff report, application package and other materials of the above items will be available on Friday of the week preceding the meeting by visiting: <https://mapinfo.alachuacounty.us/development-projects/>. For further information call (352) 374-5249. Visit www.alachuacounty.us and click on the meetings tab on the homepage for the most up to date information.

PUBLIC NOTICE

A Neighborhood Meeting will be held to discuss two applications on 446 acres in the City of Alachua (Portions of Alachua County Tax Parcels # 03873-001-000 and 03873-000-000):

1. A Small-scale Comprehensive Plan Amendment (ScCPA) application requesting to change the site's Future Land Use (FLU) Classification from Agriculture to Commercial; and
2. A Rezoning application requesting to change the site's Zoning from Agriculture (A) to Commercial Intensive (CI).

The site is located generally on the east side of CR 235A and south of NW 162nd Lane.

This is not a public hearing. The purpose of this meeting is to inform the public about the nature of the proposals and seek their comments.

Small-Scale Comprehensive Plan Amendment (SsCPA) & Rezoning Applications

City of Alachua
Neighborhood Meeting
April 20, 2022

21-0025.08: Tomoka Hills SsCPA & Rezoning

1

The **purpose** of the neighborhood meeting:

The City of Alachua requires SsCPA and Rezoning applicants to host a neighborhood meeting prior to application submittal.

The purpose is to inform neighbors of the proposed action's nature and to get feedback early in the process.

This meeting provides the applicant with an opportunity to identify concerns prior to the application's submission.

Workshop Minutes

NEIGHBORHOOD MEETING MINUTES

Tomoka Hills Office Comp. Plan Amendment & Rezoning

21-0025.08

Event: Neighborhood Meeting
Date/Time: April 20, 2022 @ 6:00 PM
Place: CHW Office – 11801 Research Drive, Alachua, FL, 32615
Re: Small-scale Comprehensive Plan Amendment (SsCPA) and Rezoning Applications

CHW (Agent) Attendees: Craig Brashier; Braxton Linton; Seth Wood
Public Attendees: 0

CHW, on behalf of Tomoka Hills Farms, Inc., hosted the required Neighborhood Meeting and prepared a presentation to convey the following: the meeting's purpose; the applications' requests and intents; the opportunities presented by the applications; the general application review process and estimated project timeline; maps illustrating the site's regulatory and physical characteristics; and a conceptual layout. No members of the public attended the meeting. After a thirty minute grace period, **the meeting was adjourned at approximately 6:30 PM.**

Application Package

1. Executive Summary

To: Kathy Winburn, AICP, City of Alachua Planning & Community Dev. Director
From: Seth Wood, Project Planner, CHW
Date: April 28, 2022 RESUBMITTED June 8, 2022 RESUBMITTED June 22, 2022
Re: Tomoka Hills Nonresidential – Small-scale Comprehensive Plan Amendment (SsCPA) Application

<u>Jurisdiction:</u> City of Alachua	<u>Intent of Application:</u> To allow development of non-residential uses including new office buildings.
<u>Description of Location:</u> East of County Road 235A and south of NW 162 nd Lane.	
<u>Parcel Numbers:</u> 03873-000-000 03873-001-000	<u>Acres:</u> ±45.3 acres (Source: CHW Legal Description)
<u>Existing Future Land Use (FLU) Classification:</u> <i>Agriculture</i> The Agriculture FLU category provides for land to maintain agriculture operations and preserve rural character.	<u>Proposed FLU Classification:</u> <i>Community Commercial</i> The Commercial land use category provides for neighborhood- and community-scale goods and services uses adjacent to neighborhood and residential areas.
<u>Existing Zoning District:</u> <i>A: Agriculture</i> The A district is intended to provide for areas primarily consisting of agriculture uses and agriculture support uses and also allow low-density single-family residential development.	<u>Proposed Zoning District:</u> <i>CC: Community Commercial</i> The CC district is intended to provide lands for business uses that provide goods and services to residents of the entire community.
<u>Existing Max. Permitted Intensity:</u> ±45.3 acres * 0.2 dwelling units/acre = ±9 dwelling units	<u>Proposed Max. Permitted Intensity:</u> ±45.3 acres * 0.5 FAR = ±986,634 sq. ft.

STATEMENT OF PROPOSED CHANGE

This Small-scale Comprehensive Plan Amendment (SsCPA) application requests to amend the City of Alachua Future Land Use (FLU) Map on Alachua County tax parcels 03873-000-000 and 03873-001-000 (hereinafter “the property”, “the project site”, or “the subject property”) from Agriculture to Community Commercial. The subject parcel is located east of County Road (CR) 235A / NW 173rd Street and south of NW 162nd Lane. An aerial is provided as **Figure 1** that shows the site’s exact location and conditions.

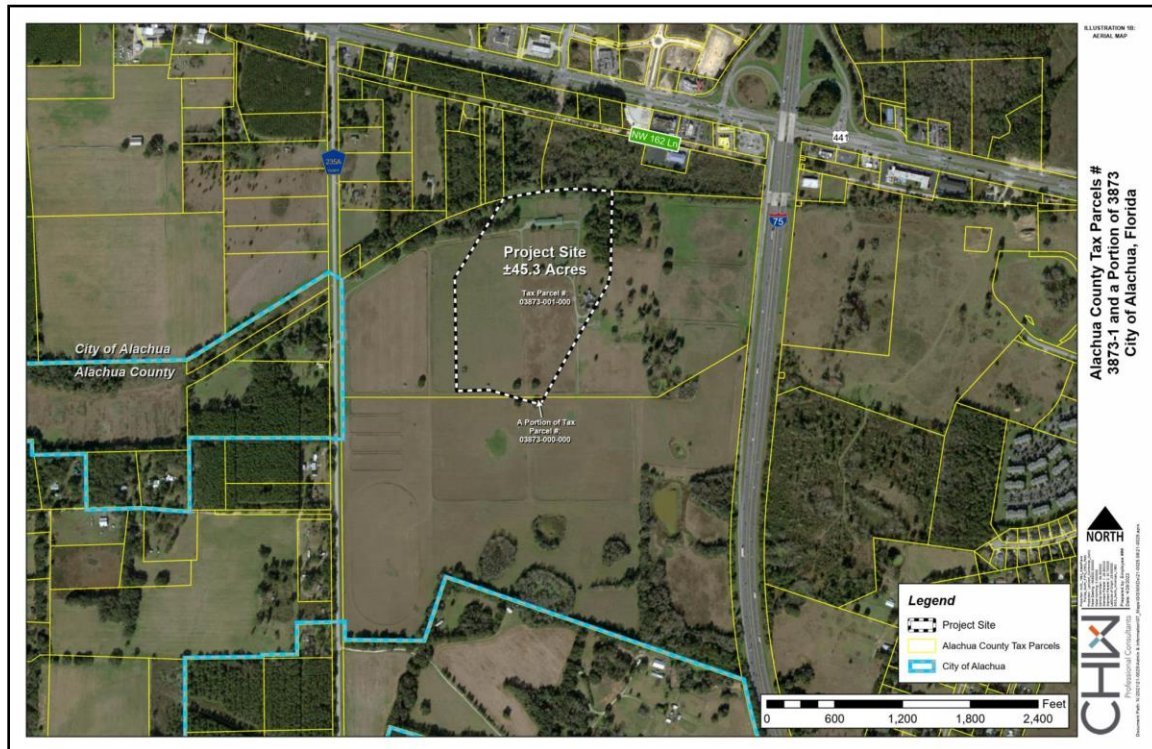

Figure 1: Aerial Map

This application is submitted concurrently with a rezoning application, requesting to change the site’s zoning districts from Agricultural (A) to Community Commercial (CC). The development planned to follow these requests is two (2) new office buildings on the property. These office buildings will be used for the relocation of an existing company to the City.

Existing FLU and Zoning designations of adjacent parcels are identified in **Table 1** and illustrated in **Figures 2** and **4**. The proposed FLU classification is illustrated in **Figure 3**. The proposed Zoning District is illustrated in **Figure 5**.

Table 1: Surrounding Future Land Use and Zoning Designations

Direction	Future Land Use Designation	Zoning Designation
North	Commercial	Commercial Intensive (CI)
East	Agricultural	Agriculture (A)
South	Agricultural	Agriculture (A)
West	Agricultural	Agriculture (A)

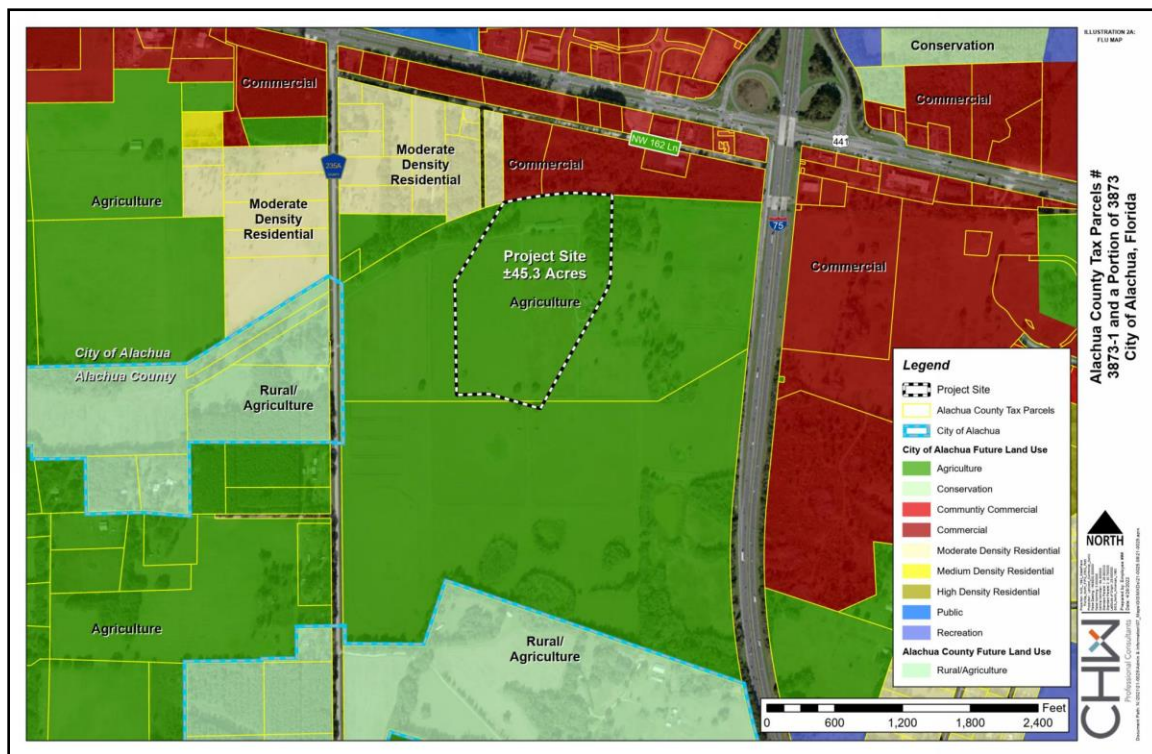

Figure 2: Existing Future Land Use Map

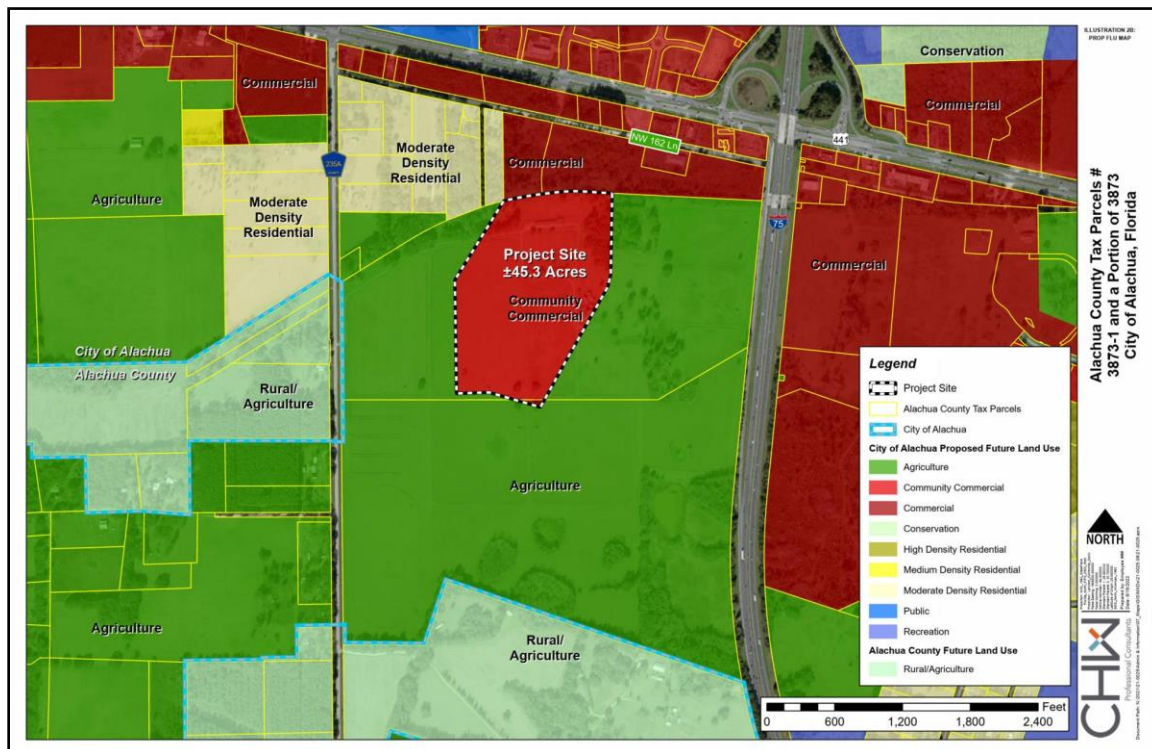

Figure 3: Proposed Future Land Use Map

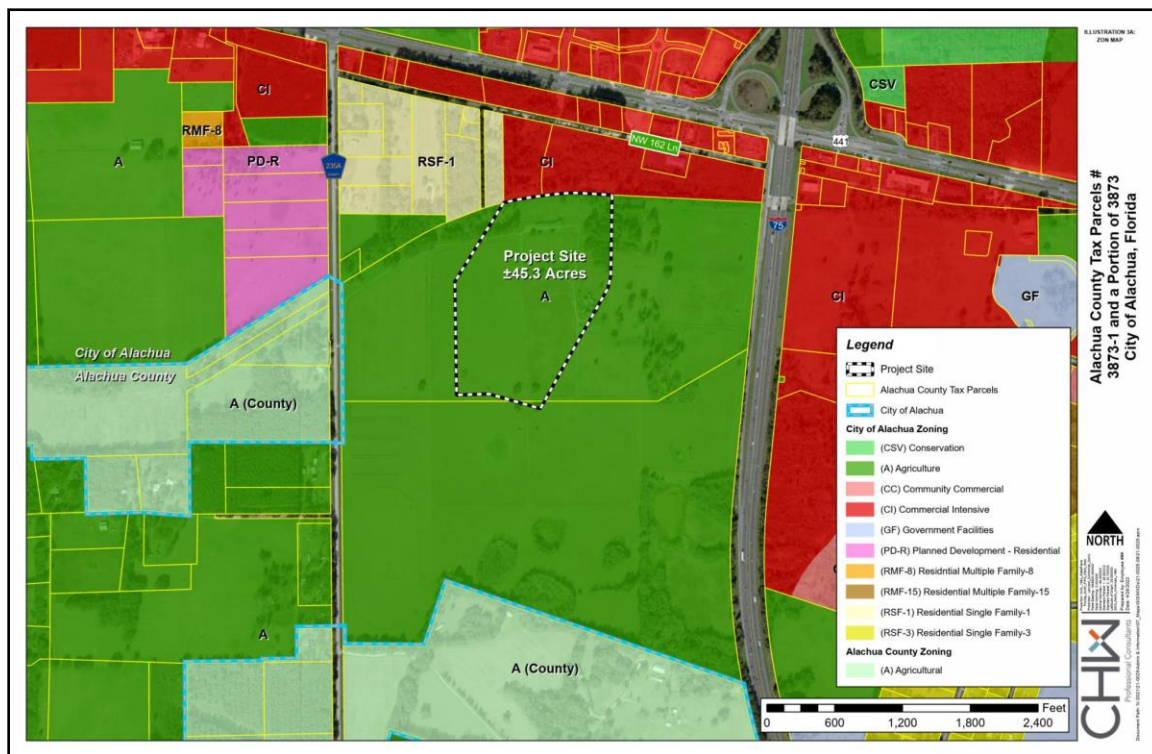

Figure 4: Existing Zoning Map

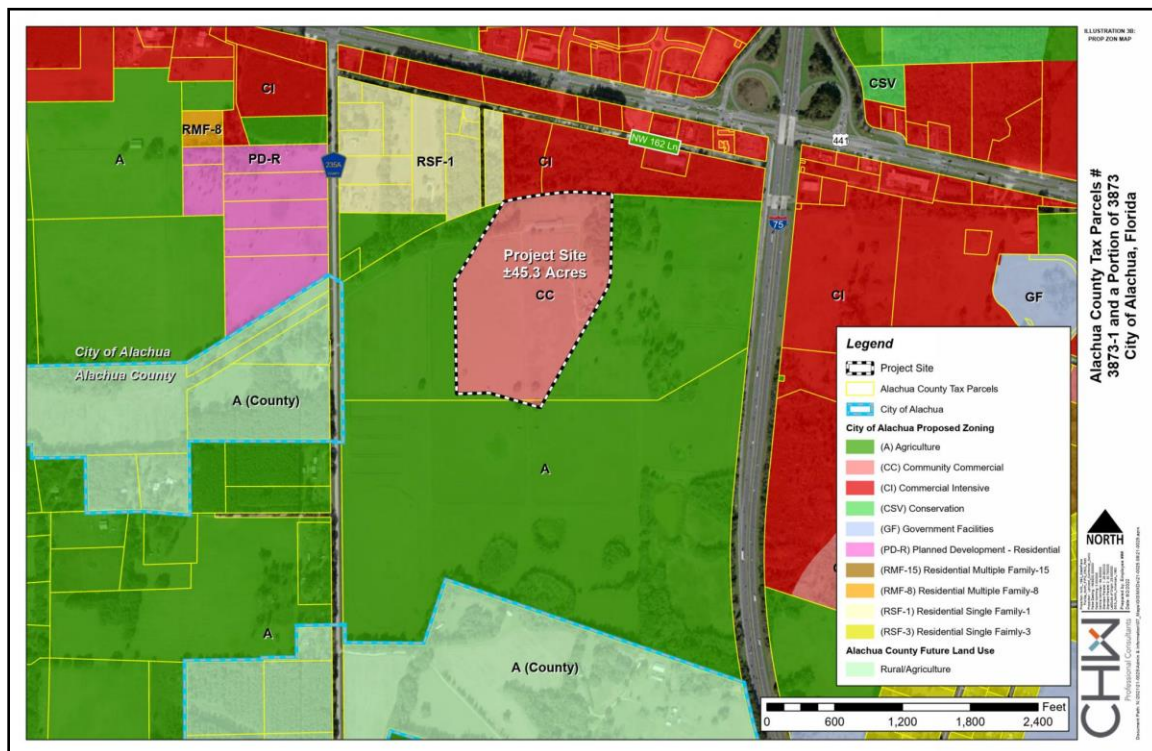

Figure 5: Proposed Zoning Map

3. CONCURRENCY ANALYSIS

This application requests to change the ±45.3-acre site's FLU classification from Agriculture to Community Commercial. Approval of this application will change the site's theoretical maximum permitted intensity.

Existing and proposed maximum intensity for the project site, as well as a realistic expectation of intensity, are as follows:

Table 2. Existing and Proposed Maximum Density Comparison

Existing Maximum Permitted Intensity <i>Agricultural</i>	Proposed Maximum Permitted Intensity <i>Community Commercial</i>	Realistic Expectation of Intensity <i>Community Commercial</i>
±45.3 acres * 0.2 dwelling units/ acre = ±9 dwelling units	±45.3 acres * 0.5 FAR = ±986,634 sq. ft.	±45.3 acres * 0.15 FAR = ±295,990 sq. ft.
<i>Realistically, the development intent to follow this request is ±100,000 square feet of office space. This planned square footage is substantially lower than the sq. ft. possible in the maximum permitted intensity scenario.</i>		

Roadways / Transportation

Table 3a: Projected Maximum Trip Generation

Land Use	ITE LU Code	Variable Type	Variable Quantity	Daily	AM Peak			PM Peak		
					Total	In	Out	Total	In	Out
Existing										
Single Family Detached	210	DU	9.000	110	8	2	6	10	6	4
Proposed										
General Office Building	710	KSF	591.980	5,451	773	680	93	727	124	603
High-Turnover Sit Down Restaurant	932	KSF	39.465	4,231	378	208	170	357	218	139
Shopping Center	820	KSF	355.189	15,138	343	213	130	1,406	675	731
Total				24,820	1,494	1,101	393	2,490	1,017	1,473
Net Change				24,710	1,486	1,099	387	2,480	1,011	1,469

Table 3b: Projected Realistic Trip Generation

Land Use	ITE LU Code	Variable Type	Variable Quantity	Daily	AM Peak			PM Peak		
					Total	In	Out	Total	In	Out
General Office Building	710	KSF	177.594	1,912	274	241	33	267	45	222
High-Turnover Sit Down Restaurant	932	KSF	11.840	1,269	378	208	170	357	218	139
Shopping Center	820	KSF	106.557	8,646	196	122	74	591	284	307
Total				11,827	848	571	277	1,215	547	668

Source: ITE Trip Generation Manual, 11th Edition

Both Tables 3a and 3b consider a development scenario with 60% of the site devoted to office space; 36% of the site devoted to shopping center; and 4% of the site devoted to restaurant.

Conclusion: Approval of this application results in a potential for the number of trips generated by the proposed FLU classifications to be larger than the number of trips generated by the existing FLU classifications.

Existing Traffic (2008) ¹	8,054	765	6,025	572	2,930	278	1,380	131	5,209	495
Reserved Trips ¹	90	10	765	43	53	-	816	85	287	31
Available Capacity	6,256	515	14,090	1,266	12,137	1,081	12,924	1,143	9,624	833
Projected Trip Generation ²	1,241	125	1,241	125	745	75	1,241	125	2,482	249
Residual Capacity with Zoning Approval	5,015	391	12,849	1,141	11,392	1,006	11,683	1,018	7,142	584

1. Source: City of Alachua March 2022 Development Monitoring Report

2. Projected trip distribution percentages estimated as follows:

- Segment 1: 25%
- Segment 2: 25%
- Segment 3: 10%
- Segment 4: 15%
- Segment 5: 25%
- Segment 6: 100%
- Segment 7: 10%
- Segment 8: 10%
- Segment 9: 5%
- Segment 13: 5%
- Segment 14: 3%
- Segment 16: 5%
- Segment 17: 10%

Conclusion: When considering the impact of a maximum theoretical development scenario on affected roadway segments, all but one affected roadway segment—Segment 6—maintain residual capacity. The residual capacity of Segment 6 is shown to be deficient in Table 4a, indicating that, were the entire ±45.3-acre property to be developed at a 0.5 FAR, the number of trips generated would have the potential to exceed the residual capacity of the segment as listed in the March 2022 Development Monitoring Report. *In reality, such a development scenario is not likely, due to realistic constraints on development including setbacks, buffers, and natural features, and market forces such as demand and community character.* Furthermore, a full Traffic Impact Analysis (TIA) will be submitted at time of each site plan application for a phased development of the property, and appropriate improvements and mitigations will be identified based upon the actual impacts of any proposed development. Development of the property will occur in phases, ensuring that roadway capacity is considered throughout development programming.

Additionally, this analysis only considers one access point to the project site from US 441, as that is all that will be constructed to serve the initial phases of development. In reality, a secondary access point to CR 235A will also be constructed as future phases of the project site and surrounding properties continue to develop. A secondary access point would reduce the impacts to Segment 6 as shown in this analysis.

Table 4b: Projected Realistic Impacts on Affected Roadway Segments

Traffic System Category	Segment 5		Segment 6		Segment 8		Segment 9		Segment 17	
	US 441		US 441		SR 235		SR 235		CR 235A	
	From SR 235 to I-75		From I-75 to CR 235A		From NW 143rd Place to US 441		From US 441 to NW 140th Street		From US 441 to CR 235	
	AADT	PM	AADT	PM	AADT	PM	AADT	PM	AADT	PM
Maximum Service Volume ¹	39,000	3,510	39,000	3,510	14,400	1,290	14,400	1,290	15,120	1,359
Existing Traffic	24,204	2,299	30,111	2,681	10,180	967	8,054	765	5,209	495
Reserved Trips ¹	2,160	170	1,927	154	5	1	90	10	287	31
Available Capacity	12,636	1,041	6,962	495	4,215	322	6,256	515	9,624	833
Projected Trip Generation ²	2,957	304	11,827	1,215	1,183	122	591	61	1,183	122
Residual Capacity with Zoning Approval	9,679	737	(4,865)	(720)	3,032	201	5,665	454	8,441	712

1. Source: City of Alachua March 2022 Development Monitoring Report

2. Projected trip distribution percentages estimated as follows:

- Segment 5: 25%
- Segment 6: 100%
- Segment 8: 10%
- Segment 9: 5%
- Segment 17: 10%

Conclusion: When considering the impact of a realistic development scenario on affected roadway segments, fewer roadway segments are impacted. Realistic development programming of the property will occur in phases. At each phase, traffic impacts will be taken into account. Permits cannot be obtained for development without a demonstration of adequate roadway capacity.

The first phase of site development, to include two (2) 50,000 sq. ft. office buildings, will occur concurrent with the extension of NW 167th Boulevard south, from its intersection with US 441, to the project site. As phased development of the property and its surroundings continues, a secondary access point to CR 235A will also be constructed. A secondary access point would reduce the impacts to Segment 6 as shown in this analysis.

Table 5a: Projected Theoretical Maximum Potable Water Impacts

System Category	Gallons Per Day (GPD)
Current Permitted Capacity ¹	2,300,000
Less actual Potable Water Flows ¹	1,300,250
Reserved Capacity ¹	214,194
Residual Capacity ¹	785,556

a. Formulas used:

i. Office: 15 gallons per day / 100 sq. ft. of floor space

1. $(177,594 \text{ sq. ft.} * 15 \text{ gpd}) / 100 = \mathbf{26,639.1 \text{ gpd}}$

ii. Restaurant: $((\text{sq. ft. of floor space} * 60\%) / 15 \text{ sq. ft. per seat}) * 20 \text{ gallons per day}$

1. $((11,840 \text{ sq. ft.} * 60\%) / 15 \text{ sq. ft.}) * 20 \text{ gpd} = \mathbf{9,472 \text{ gpd}}$

iii. Shopping Center: 0.1 gallons per day / sq. ft. of floor space

1. $0.1 \text{ gpd} * 106,557 \text{ sq. ft.} = \mathbf{10,655.7 \text{ gpd}}$

Conclusion: The project site will be served by existing City of Alachua sanitary sewer infrastructure. Neither the maximum possible allowable impacts nor the realistic projected impacts from approval of this application will exceed capacity of the City's adopted LOS for sanitary sewer.

Table 7a: Projected Theoretical Maximum Solid Waste Impacts

System Category	LBs Per Day	Tons Per Year
Existing Demand ¹	42,296	7,719.02
Reserved Capacity ¹	18,329.99	3,345.22
New River Solid Waste Facility Capacity ¹	50 years	
Solid Waste Generated By Proposed Project ²		2,160.73

1. Source: City of Alachua March 2022 Development Monitoring Report

2. Source: Sincero and Sincero; *Environmental Engineering: A Design Approach*. Prentice Hall, New Jersey, 1996.

a. Formula used: Formula used: $((12 \text{ lbs.} / 1,000 \text{ ft}^2/\text{day} * [986,634]) * 365)/2,000$

Table 7b: Projected Realistic Solid Waste Impacts

System Category	LBs Per Day	Tons Per Year
Existing Demand ¹	42,296	7,719.02
Reserved Capacity ¹	18,329.99	3,345.22
New River Solid Waste Facility Capacity ¹	50 years	
Solid Waste Generated By Proposed Project ²		648.22

1. Source: City of Alachua March 2022 Development Monitoring Report

2. Source: Sincero and Sincero; *Environmental Engineering: A Design Approach*. Prentice Hall, New Jersey, 1996.

a. Formula used: Formula used: $((12 \text{ lbs.} / 1,000 \text{ ft}^2/\text{day} * [295,990]) * 365)/2,000$

Conclusion: Solid waste facility capacity exists to adequately serve development of the subject property. Thus, potential impacts from approval of this application will not negatively impact the City's adopted LOS for this system.

4. CONSISTENCY WITH CITY OF ALACHUA COMPREHENSIVE PLAN

This section identifies specific City of Alachua Comprehensive Plan Goals, Objectives, and Policies and explains how this application is consistent with each. Text from the City of Alachua Comprehensive Plan is provided in normal font while consistency statements are provided in **bold**.

FUTURE LAND USE ELEMENT

Objective 1.3: Commercial

The City shall establish three commercial land use categories: Community Commercial, Commercial, and Central Business District. These land use categories shall provide a broad range of commercial uses, including retail sales and services, personal services, offices, and tourist-oriented uses, in order to provide for the availability of goods and services, both to the citizens and visitors of Alachua and to the citizens of the North Central Florida region.

Policy 1.3.a: Community Commercial: The Community Commercial land use category is established to provide neighborhood and community scale goods and services to adjacent neighborhood and residential areas. The following uses are allowed within the Community Commercial land use category:

1. Neighborhood commercial establishments;
2. Residential/offices and live-work units;
3. Business and professional offices;
4. Personal services;
5. Financial institutions;
6. Retail sales and services that serve the community;
7. Eating establishments;
8. Indoor recreation/entertainment;
9. Single-family and multi-family residential above first floor commercial uses;
10. Bed and breakfasts;
11. Supporting community services such as schools, houses of worship, parks, and community centers; and,
12. Traditional Neighborhood Planned Developments

The intended use of the subject property following the requested FLU classification change is two office buildings. Office is an allowed use in the Community Commercial land use category. These office buildings represent the beginning of a larger development program for the property, which will be used for the creation of a well-considered, master-planned area. Subsequent uses, such as supporting retail and restaurant, will also be consistent with those allowed by the Community Commercial FLU classification.

Policy 1.3.d: Design and performance standards: The following criteria shall apply when evaluating commercial development proposals:

1. Integration of vehicular and non-vehicular access into the site and access management features of site in terms of driveway cuts and cross access between adjacent sites, including use of frontage roads and/or shared access;
2. Buffering from adjacent existing/potential uses;
3. Open space provisions and balance of proportion between gross floor area and site size;
4. Adequacy of pervious surface area in terms of drainage requirements;
5. Placement of signage;
6. Adequacy of site lighting and potential impacts of lighting upon the surrounding area. Lighting should be designed to minimize impacts to preserve the ambiance and quality of the nighttime sky by reducing light trespass and light pollution on adjacent properties

- by utilizing lighting at appropriate intensities, directions and times to ensure light is not overused or impacting areas where it is not intended;
7. Safety of on-site circulation patterns (patron, employee, and delivery vehicles), including parking layout, drive aisles, and points of conflict;
 8. Landscaping, as it relates to the requirements and goals of the Comprehensive Plan and Land Development Regulations;
 9. Unique features and resources which may constrain site development such as soils, existing vegetation and historic significance;
 10. Performance based zoning requirements, which may serve as a substitute for or accompany land development regulations in attaining acceptable site design; and,
 11. Commercial uses shall be limited to an intensity of less than or equal to 0.50 floor area ratio for parcels 5 acres or greater, 0.75 floor area ratio for parcels less than 5 acres but greater than 1 acre, and 1.0 floor area ratio for parcels 1 acre or less.

Any future development of the property following the requested change in FLU classification will adhere to all required design and performance standards. Per this policy, a 0.5 FAR was utilized to calculate theoretical maximum Level of Service impacts of this request. Those calculations can be found in Section 3 of this report. As demonstrated in Section 3, this request is not anticipated to result in any degradation of established Level of Service standards.

Policy 1.3.e: The creation/promotion of strip pattern commercial development shall be discouraged. Infill within established commercial areas is preferred over extension of a strip commercial pattern. Extension of a commercial land use designation may be considered in circumstances where the extension is compatible with the existing land uses surrounding the land or the land use categories of surrounding lands. Extensions of a commercial land use category shall not encroach into a residential area. The following criteria shall be applied to limit the impacts of commercial development upon surrounding areas:

No strip pattern commercial development is proposed for creation or promotion by this SsCPA application or the concurrently submitted rezoning application.

The subject property is immediately adjacent to land within the Commercial FLU classification. The Community Commercial FLU classification is complementary to the Commercial FLU classification, as both are established as commercial land use categories by Comprehensive Plan Future Land Use Element Objective 1.3. In the surrounding area of the project site, uses include a major highway interchange; Santa Fe High School; a shopping plaza, inclusive of a Publix supermarket; a new hotel next to Interstate 75; plans for new quick service restaurants on US 441; and planning underway on CR 235A for Santa Fe Crossings, a future mixed-use development.

The subject property also abuts land with Agricultural land use to its east, west, and south. This land is currently undeveloped and not actively used for agriculture. The Agricultural and Community Commercial land use categories can be compatible with one another, as the Agricultural FLU allows for a number of residential, educational, institutional, and recreational uses that are compatible and complementary with the neighborhood- and community-scale goods and service uses allowed by the Community Commercial FLU. These uses are implemented via the Community Commercial (CC) zoning district, which the Community Commercial FLU supports and which is requested for the property in a concurrently-submitted rezoning application. The CC zoning district, compared to the Commercial, Intensive (CI) zoning district, limits the more intense commercial uses, such as car sales and restaurants with drive-through.

Furthermore, this land is under common ownership with the subject property. It is the intent of the property owner to create a cohesive, master planned development on this land. This comprehensively planned area can stand in contrast to a piecemeal, strip pattern of development by being much more pedestrian- and multi-modal oriented in design.

Thus, this application is requesting an extension of the existing commercial area, allowing for cohesive urban form that is not strip development. This extension is compatible with the planned land uses of the surrounding area, much of which is under common ownership by the applicant. This extension does not encroach into a residential area, as all abutting surrounding land is currently undeveloped.

1. Impacts upon traffic circulation should be anticipated and mitigated through the reservation of right-of-way for road widening and marginal access streets when appropriate.
2. Access points for commercial development shall minimize points of conflict by utilizing frontage roads, providing cross access between parcels, or installing shared use ingress and egress access driveways connections to roadways.
3. Setbacks and landscaped or other appropriate buffers shall be established to mitigate the visual impacts of commercial development upon surrounding land uses.
4. A sidewalk or bicycle path shall be required where appropriate, to provide convenient access to the development from surrounding areas and to reduce traffic volumes on the roadways.

The listed criteria will be considered and adhered to in any development of the property to follow the requested land use amendment.

Policy 2.7.a.: The City shall discourage the proliferation of urban sprawl. Applications for an amendment to the land use category of a property shall include an analysis of the application's discouragement of the proliferation of urban sprawl. Such analysis shall consider the primary indicators or the urban form criteria as set forth in Chapter 163.317(6)(a)9.a. and b., Florida Statutes, respectively.

Section 5 of this justification report addresses Chapter 163.317(6)(a)9.a. and b. As that section demonstrates, this application does not constitute urban sprawl.

The requested change will not result in “a development pattern characterized by low density, automobile-dependent development with either a single use or multiple uses that are not functionally related, requiring the extension of public facilities and services in an inefficient manner, and failing to provide a clear separation between urban and rural uses” (163.3164(51), FS).

Rather, the requested changes to Community Commercial FLU and Community Commercial (CC) zoning will allow for a range and mixture of nonresidential uses and opportunities. The size of the property allows adequate space for such a development pattern. While the creation of two (2) office buildings is the driving factor in these requests, the office buildings will not utilize the entirety of the property. The offices represent the beginning of a larger development program that will also likely include supporting retail and restaurant uses. The remainder of the area will be used for the creation of a well-considered, master-planned area. This is possible with the Community Commercial FLU and CC zoning because of the range and mixture of nonresidential uses and opportunities they allow.

Public facilities and services are immediately nearby, precluding the costly extension of infrastructure. Given the site's proximity to both US 441 and I-75, as well as the high-intensity zoning to its north, a clear separation of urban and rural uses is established.

Objective 5.1: Natural features: The City shall coordinate Future Land Use designations with appropriate topography, soils, areas of seasonal flooding, wetlands and habitat during review of proposed amendments to the Future Land Use Map and the development review process. Natural features may be included as amenities within a development project.

A preliminary, desktop analysis of the subject property indicates that there are no wetlands within the project area boundary and no portions of the project area are within a documented FEMA floodplain. The topography and soils onsite are suitable to development. Prior to any development occurring, an environmental assessment will be conducted to gain greater detail on these matters.

Policy 5.1.a: Topography: The City shall protect the natural topography of the City, including steep and seepage slopes, by requiring new development to include techniques to minimize negative impacts on the natural terrain. An emphasis will be placed on retaining the natural function of seepage slopes during development. Additionally, retention of existing native vegetation will be encouraged as one method of protecting slopes.

Development that occurs onsite will include techniques to minimize negative impacts on the natural terrain. The project site generally slopes north/northeast. This natural function will be retained to the maximum extent practicable.

Policy 5.1.b: Soils: The City shall ensure soil protection and intervention measures are included in the development review process.

There are currently six (6) types of soils located onsite:

- **Arredondo Fine Sand, 0 to 5 Percent Slopes (Hydro. Group A)**
- **Gainesville Sand, 0 to 5 Percent Slopes (Hydro. Group A)**
- **Millhopper Sand, 5 to 8 Percent Slopes (Hydro. Group: A)**
- **Fort Meade Fine Sand, 0 to 5 Percent Slopes (Hydro. Group A)**
- **Kendrick Sand, 5 to 8 Percent Slopes (Hydro. Group B)**
- **Pits and Dumps (Hydro. Group N/A)**

Appropriate development techniques and design considerations will be applied to the various soil types on this site when development occurs.

Policy 5.1.c: Flood prone areas: The City shall require as part of the development review process the identification of FEMA flood zone areas. Where necessary, base flood elevations and minimum finished floor elevations shall be established. The City shall also require finished floor elevations on subdivision plats, site plans and building permit plans when necessary to determine compliance with flood prone area regulations. The City shall establish standards for a limitation on filling in flood prone areas.

The project site is not within any documented FEMA Flood Zone areas.

Policy 5.1.d: Wetlands: The City shall utilize statewide wetland delineation methodology in accordance with Florida Administrative Code (FAC) and regulations adopted by the FDEP and the Suwannee River Water Management District.

There are no documented wetlands on the project site. Should any be discovered, they will be avoided to the maximum extent practicable or buffered and mitigated consistent with City and County requirements in subsequent development.

Policy 5.1.e: Habitat: The City shall require as part of the development review process, an inventory of listed species for all new developments in areas identified as known habitat for listed species if listed species are known to exist in close proximity to the development. The survey shall include detailed information regarding type, quantity, location, and habitat requirements for any listed species identified. A de minimus threshold for properties required to complete the inventory shall be established in the City's Land Development Regulations.

There are no documented listed wildlife or plant species onsite. When development plans are submitted for the project site, an inventory of listed species will be included per this policy requirement.

Objective 5.2: Availability of facilities and services: The City shall utilize a concurrency management system to ensure that the adopted level of service standards are maintained.

Section 3 of this report demonstrates the impacts that both a maximum development scenario and a realistic development scenario would have on available facilities and services. As demonstrated in this section, there is adequate capacity in potable water, sanitary sewer, and solid waste utility facilities to ensure the adopted level of service standards would be maintained in both a maximum potential and a realistic development scenario of the property.

Calculations do indicate that development of the property has the potential to cause Roadway Segment 6 to operate below its adopted Level of Service standard. While this scenario is theoretically possible, in reality, it is highly unlikely. Development of the property will be phased, and detailed traffic impact analyses will be conducted at each phase. Operational improvements will be investigated and implemented as possible during development programming. As development occurs, a secondary access point is likely to be constructed, reducing the impacts of development of the property on Segment 6.

Policy 5.2.a: All new development shall meet level of service requirements for roadways, potable water and sanitary sewer, stormwater, solid waste, public schools, and improved recreation in accordance with LOS standards adopted in the elements addressing these facilities.

Section 3 of this report demonstrates the impacts that both a maximum development scenario and a realistic development scenario would have on available facilities and services. As demonstrated in this section, there is adequate capacity in potable water, sanitary sewer, and solid waste utility facilities to ensure the adopted level of service standards would be maintained in both a maximum potential and a realistic development scenario of the property.

Calculations do indicate that development of the property has the potential to cause Roadway Segment 6 to operate below its adopted Level of Service standard. While this

scenario is theoretically possible, in reality, it is highly unlikely. Development of the property will be phased, and detailed traffic impact analyses will be conducted at each phase. Operational improvements will be investigated and implemented as possible during development programming. As development occurs, a secondary access point is likely to be constructed, reducing the impacts of development of the property on Segment 6.

Policy 5.2.b: The concurrency management system shall specify the period for which certification of level of service compliance shall be valid until actual development pursuant to a final development order or Ch. 163, Florida Statutes, development agreement has commenced.

A certification of level of service compliance shall be obtained during development plan review, following the approval of this application.

CONSERVATION AND OPEN SPACE ELEMENT

Objective 1.5: Soils. The City shall protect soil resources through erosion and sedimentation control, by requiring proper design criteria on specific soils.

There are currently six (6) types of soils located onsite:

- Arredondo Fine Sand, 0 to 5 Percent Slopes (Hydro. Group A)
- Gainesville Sand, 0 to 5 Percent Slopes (Hydro. Group A)
- Millhopper Sand, 5 to 8 Percent Slopes (Hydro. Group: A)
- Fort Meade Fine Sand, 0 to 5 Percent Slopes (Hydro. Group A)
- Kendrick Sand, 5 to 8 Percent Slopes (Hydro. Group B)
- Pits and Dumps (Hydro. Group N/A)

Appropriate development techniques and design considerations will be applied to the various soil types on this site.

Objective 1.7: Geological Resources. The City shall identify, protect and conserve significant geological resources and their natural functions.

Policy 1.7.a: The City shall work with the Florida Geological Survey (FGS), Florida Department of Environmental Protection (FDEP), Suwannee River Water Management District, and the Alachua County Environmental Protection Department, to identify and map significant geological resources, including karst features such as sinkholes, caves, and entire stream to sink basins. Significance of a feature should reflect its potential contribution to the area's network of natural resources.

A desktop analysis of available data indicates that the subject property lies within the Alachua County Sensitive Karst Area. Prior to any development of the subject property, an Environmental Resource Assessment will be conducted to identify what, if any, significant geologic resources may be onsite. In development planning and the calculation of stormwater management needs, the findings of this assessment will be taken into account. Subsequent development will comply with LDR §6.9.3(3) and all applicable Suwannee River Water Management District criteria.

Objective 1.10: Wetlands. The City shall protect and preserve wetland values and functions from adverse, human caused, physical and hydrologic disturbances.

The National Wetlands Inventory database does not indicate any wetlands onsite. If any wetlands are found onsite, they will be adequately protected in development of the project site.

TRANSPORTATION ELEMENT

Policy 1.1a: The City shall establish and maintain the Level of Service Standards, as noted below, at the PM peak hour for the following roadway segments within the City.

Segment Number	Segment Description	Lanes	Functional Classification	Area Type	Adopted LOS Standard
5	US 441 (From SR 235 to I-75)	4/D	Principle Arterial	Comm	D
6	US 441 (From I-75 to CR 235A)	4/D	Principle Arterial	Urban Trans	D
7	US 441 (From CR 235A to NW 188 th St)	4/D	Principle Arterial	Urban Trans	D
8	SR 235 (From NW 143 rd Place to US 441)	2/U Bays	Major Collector	Comm	D
9	SR 235 (From US 441 to NW 140 th Street)	2/U Bays	Major Collector	Comm	D
11	CR 235 (From NW 143 rd Place to South City Limits)	2/U	Major Collector	Comm	D
13	CR 241 (From CR 235 to South City Limits)	2/U	Major Collector	Comm	D
14	CR 2054 (From SR 235 to West City Limit)	2/U	Major Collector	Comm	D
16	CR 235A (From US 441 to North City Limit)	2/U	Major Collector	Comm	D
17	CR 235A (From US 441 to CR 235)	2/U	Major Collector	Comm	D

Section 3 discusses in detail the potential impacts to roadway Level of Service Standards from development of the subject property with the proposed FLU classification and zoning district. Both a maximum potential development scenario and a realistic development scenario are considered.

Calculations in this section do indicate that development of the property has the potential to cause Roadway Segment 6 to operate below its adopted Level of Service standard of D. While this scenario is theoretically possible, in reality, it is highly unlikely. Development of the property will be phased, and detailed traffic impact analyses will be conducted at each phase. Operational improvements will be investigated and implemented as possible during development programming. As development occurs, a secondary access point is likely to be constructed, reducing the impacts of development of the property on Segment 6.

5. URBAN SPRAWL ANALYSIS

The approval of this SsCPA does not constitute urban sprawl. As defined in Florida Statutes (FS), “urban sprawl” means “a development pattern characterized by low density, automobile-dependent development with either a single use or multiple uses that are not functionally related, requiring the extension of public facilities and services in an inefficient manner, and failing to provide a clear separation between urban and rural uses” (163.3164(51), FS).

Chapter 163.3177(6)(a)9.a, FS, formally identifies the thirteen (13) indicators of urban sprawl. This chapter states that, “the evaluation of the presence of these indicators shall consist of an analysis of the plan or plan amendment within the context of features and characteristics unique to each locality in order to determine whether the plan or plan amendments. . .” meets the indicators, as listed below.

As demonstrated by the following analysis, the proposed SsCPA does not trigger any urban sprawl indicators, and adoption of this application will discourage the proliferation of urban sprawl within the City of Alachua or the surrounding area. All indicators are shown in normal font, while consistency statements are provided in **bold font**.

- (I) Promotes, allows or designates for substantial areas of the jurisdiction to develop as low-intensity, low-density, or single-use development or uses.

This SsCPA request does not promote, allow, or designate substantial areas for development as low-intensity or single-use development.

While the driving factor behind this request is the development of two (2) office buildings and their supporting infrastructure, this immediate development will not be so large to occupy the entire ±45.3-acre subject property. The office building development can be considered the beginning phase of a larger master plan for the property. This master plan will include a mixture of nonresidential uses, made possible by the requested FLU classification of Community Commercial. The size of the subject property will allow for cohesive planning and pedestrian-friendly urban form, rather than low-intensity, single-use, radial, isolated development.

- (II) Promotes, allows, or designates significant amounts of urban development to occur in rural areas at substantial distances from existing urban areas while leaping over undeveloped lands which are available and suitable for development.

This SsCPA request does not promote, allow, or designate significant amounts of urban development to occur in a rural area at a substantial distance from existing urban areas.

The proposed amendment promotes urban development in an urbanized area, with residential and nonresidential offerings and in close proximity to both US 441 and Interstate-75 with readily available utility infrastructure to serve the site.

Rather than leaping over undeveloped lands available and suitable for development, development of the land subject to this application would occur immediately proximate to a range of existing development.

- (III) Promotes, allows, or designates urban development in radial, strip, isolated, or ribbon patterns generally emanating from existing urban developments.

This SsCPA does not promote, allow, or designate urban development in a radial, strip, isolated, or ribbon pattern that emanates from existing urban development, as the subject property is not in an isolated area emanating from existing urban developments.

Rather than being isolated, it is immediately proximate to urbanized development, with nonresidential uses including a major highway interchange; a public high school; a hotel; a shopping center inclusive of a major grocer; and a slate of quick service restaurants, both existing and planned.

The area of the City within which the property is situated is also seeing multiple potential future developments on the horizon, with pending projects including Santa Fe Crossings, a potential future mixed use project; the Alachua West Subdivision; Camel Car Wash; Alachua Tire; further development of High Point Crossing; a new Alachua County Fire Rescue Station; and development to follow the recent approval of the Tomoka Hills SsCPA and rezoning applications.

The application proposes Community Commercial land use, which complements the existing Commercial land use abutting the property to its north. While the land on the property's east, south, and west are within the agricultural land use district, they are also all under common ownership with the subject property. It is the intent of the property owner to create a cohesive, master planned development on this land. This comprehensively planned area can stand in contrast to a piecemeal, strip pattern of development by being much more pedestrian- and multi-modal oriented in design. In addition to agricultural uses, the Agricultural FLU and zoning allow for a number of residential, educational, institutional, and recreational uses that are compatible with and complimentary to the nonresidential uses allowed by Community Commercial FLU and CC zoning.

- (IV) Fails to adequately protect and conserve natural resources, such as wetlands, floodplains, native vegetation, environmentally sensitive areas, natural groundwater aquifer recharge areas, lakes, rivers, shorelines, beaches, bays, estuarine systems, and other significant natural systems.

This SsCPA request does not fail to adequately protect and conserve natural resources.

Based on a preliminary desktop analysis, it appears that natural resources such as those listed are not on the property. Prior to any development occurring, an Environmental Resource Assessment will be conducted. Should any natural resources be discovered, all pertinent protection and conservation requirements will be adhered to.

- (V) Fails to adequately protect adjacent agricultural areas and activities, including silviculture, active agricultural and silvicultural activities, passive agricultural activities, and dormant, unique, and prime farmlands and soils.

This SsCPA request does not fail to adequately protect adjacent agricultural areas and activities. A rezoning application, requesting Community Commercial (CC) zoning for the property, is submitted concurrently with this application. This zoning district, in contrast to the more intensive Commercial, Intensive (CI) district to the north of the project site, has a more focused list of permitted uses, prohibiting some of the more intensive commercial uses of CI, and thus improving compatibility between the subject property and its surrounding properties.

Land to the project site's west, east, and south is within the Agricultural FLU. However, this land is under common ownership with the applicant. It is not utilized for any active or passive agricultural activities, though "passive agriculture" is defined neither by the 2021 Florida Statutes or by the City of Alachua's Comprehensive Plan or Land Development Regulations. Additionally, the property owner has no intention of using the property for agriculture.

The land today sits unutilized today. In the future, this land may be included in a larger master planned development.

(VI) Fails to maximize use of existing public facilities and services.

Approval of this request will continue to maximize the use of existing and planned public facilities and services. Future onsite development will utilize public facilities and services provided by the City of Alachua.

(VII) Fails to maximize use of future public facilities and services.

Development on the project site will connect to existing and/or planned City of Alachua public facilities and services.

(VIII) Allows for land use patterns or timing which disproportionately increase the cost in time, money and energy, of providing and maintaining facilities and services, including roads, potable water, sanitary sewer, stormwater management, law enforcement, education, health care, fire and emergency response, and general government.

This SsCPA request will not allow for a land use pattern that disproportionately increases costs as listed in this indicator. As demonstrated in Section 3 of this report, a realistic development scenario to follow the proposed land use change on the property will not lower the Level of Service standards for potable water, sanitary sewer, and solid waste. This section also indicates that a realistic development scenario would impact far fewer roadway segments compared to a maximum development scenario.

Section 3 does indicate that development of the property has the potential to cause Roadway Segment 6 to operate below its adopted Level of Service Standard of D. While this scenario is theoretically possible, in reality, it is highly unlikely. Development of the property will be phased, and detailed traffic impact analyses will be conducted at each phase. Operational improvements will be investigated and implemented as possible during development programming. As development occurs, a secondary access point is likely to be constructed, reducing the impacts of development of the property on Segment 6.

The property is in an area already served by utility and roadway infrastructure thus not requiring costly extension.

(IX) Fails to provide a clear separation between rural and urban uses.

This SsCPA request will not fail to provide a clear separation between rural and urban uses.

Though the land immediately adjacent to the property to its east, south, and west is designated Agriculture on the FLUM, the surrounding area of Alachua is urbanized in

nature. The site is proximate to two major roadways; a major highway interchange; multiple commercial offerings, such as Publix Supermarket and Santa Fe Ford; and an institutional use with Santa Fe High School. Furthermore, there are multiple new developments on the horizon for the area, including quick service restaurants, new mixed use development, and new subdivisions. In addition to agricultural uses, the Agricultural FLU and Zoning allows for a number of residential, educational, institutional, and recreational uses that are compatible and complimentary with the nonresidential uses allowed by Community Commercial FLU and CI Zoning.

The proposed amendment provides a separation of rural and urban uses by virtue of the fact that the context area of the property consists of urban, rather than rural, uses.

- (X) Discourages or inhibits infill development or the redevelopment of existing neighborhoods and communities.

This SsCPA request neither discourages nor inhibits infill development or redevelopment of existing neighborhood or communities. The land surrounding the property is undeveloped and is under common ownership with the applicant and does not currently consist of an existing neighborhood. Instead, development to follow this request will encourage development of the area.

- (XI) Fails to encourage a functional mix of uses.

This SsCPA amendment will not fail to encourage a functional mix of uses. While the driving factor behind this request is the development of two (2) office buildings and their associated infrastructure, the Community Commercial FLU designation allows for a mix of non-residential uses. The office development can be considered the beginning phase of a larger master plan for the property. This master plan will include a mixture of nonresidential uses, laid out in a cohesive and functional urban form that is multimodal and pedestrian friendly.

- (XII) Results in poor accessibility among linked or related land uses.

This SsCPA request will not result in poor accessibility among linked or related uses. Changing the FLU classification of the project site will not hinder access to uses in the area, as much of the land surrounding the project site is undeveloped. The project site is not crossed by any public rights-of-way.

- (XIII) Results in the loss of significant amounts of functional open space.

This SsCPA request will not result in the loss of significant amounts of functional open space. The project site is private property and does not currently serve as functional open space.

In addition to the thirteen (13) indicators of urban sprawl, Section 163.3177(6)(a)9.b., FS, identifies eight (8) development pattern or urban form criteria for use when evaluating a future land use or plan amendment. This section states that, if four (4) or more of the criteria are met, one can presume that the amendment discourages urban sprawl.

The proposed amendment and corresponding development are found to meet the following four (4) criteria as identified in §163.3177(6)(a)9.b.(I), (II), (IV), and (VII).

- (I) Directs or locates economic growth and associated land development to geographic areas of the community in a manner that does not have an adverse impact on and protects natural resources and ecosystems.

The proposed land use amendment expands the economic development potential of the project site, both in terms of intensity and potential uses. The project site is in an area of the City of Alachua that is urbanized and seeing further development. Directing this economic growth to an area that is seeing continual urbanization, proximate to available utilities and transportation infrastructure, precludes economic growth and associated land development from occurring in geographic areas with sensitive natural resources.

A preliminary, desktop analysis of the project site indicates that there are no FEMA flood zones or National Wetlands Inventory wetlands on the property. Prior to any development occurring on the project site, an Environmental Resource Assessment will be conducted. If the results of this assessment indicate there are any natural resources or ecosystems warranting protection, appropriate measures will be taken.

- (II) Promotes the efficient and cost-effective provision or extension of public infrastructure and services.

Public infrastructure and services exist immediately proximate to the project site. This proximity allows for efficient and cost-effective extension to the project site.

- (IV) Promotes conservation of water and energy.

Public infrastructure and services exist immediately proximate to the project site. This proximity will allow for the conservation of energy by avoiding the costly extension of services.

- (VII) Creates a balance of land uses based upon demands of the residential population for the nonresidential needs of an area.

The requested FLU classification will help create a balance of land uses in this area of the City of Alachua by expanding the development potential of the property. The City's population is growing, and demand for work grows in tandem. The requested FLU classification will make possible a more expansive provision of nonresidential opportunities on the project site relative to what is possible under the existing Agricultural FLU classification.

6. NEEDS ANALYSIS

INTRODUCTION

This SsCPA application requests to amend the City of Alachua Future Land Use (FLU) Map on Alachua County tax parcels 03873-000-000 and 03873-001-000 from Agriculture to Community Commercial. This requested change will result in the development of $\pm 100,000$ square feet of office space, as well as the subsequent master planning of the entire ± 45.3 -acre property.

Existing Maximum Permitted Intensity <i>Agricultural</i>	Proposed Maximum Permitted Intensity <i>Community Commercial</i>	Realistic Expectation of Intensity <i>Community Commercial</i>
± 45.3 acres * 0.2 dwelling units/acre = ± 9 dwelling units	± 45.3 acres * 0.5 FAR = $\pm 986,634$ sq. ft.	± 45.3 * 0.15 FAR = $\pm 295,990$ sq. ft.
<i>Realistically, the development intent to follow this request is $\pm 100,000$ square feet of office space, substantially less than the sq. ft. possible under both existing and proposed maximum permitted intensity scenarios.</i>		

The intent of this SsCPA application is to change the land use of the property to allow for the development of two (2) new office buildings for the relocation of an existing company to the City of Alachua. This change poses numerous potential benefits for the City, including job opportunities for the people of Alachua, investment in this portion of the City, and an expansion of what is possible on the project site.

POPULATION PROJECTIONS

The United States Census Bureau reported the population of the City of Alachua as 10,574 as of April 1, 2020. From 2010 to 2019, the population of the city had a percent change of 9.5%, exceeding the population change rate of Alachua County overall, which was 8.8% in the same time period (United States Census Bureau, 2021). It is anticipated that the City could grow by approximately 7,100 people by 2035 (City of Alachua Comprehensive Plan Evaluation and Appraisal).

BUSINESS AND INDUSTRY

The City of Alachua is home to multiple international corporations, several of which are Fortune 500 Companies (City of Alachua Strategic Plan 2021). The City is also home to various research arms of Santa Fe College and the University of Florida. Prominent industries in the City include biotechnology, medical research and technology, and life sciences.

COMMERCIAL POTENTIAL

A Geographic Information Systems (GIS) analysis of the City of Alachua's FLU Map indicates that approximately 6% of the City of Alachua is classified with one of the Commercial FLU classifications. These include Community Commercial, Commercial, and Central Business District. By contrast, this analysis indicates the Agricultural FLU classification accounts for the largest land area of the FLU classifications, at approximately 45%.

Table 8: Future Land Use Classifications by Acreage

Future Land Use Classification	Acreage	Percentage
Agriculture	10,042.04	44.79%
Central Business District	27.74	0.12%
Commercial	1,093.21	4.88%
Community Commercial	172.28	0.77%
Conservation	2,726.12	12.16%
Corporate Park District	390.18	1.74%
Estate (0.5 du/acre)	151.49	0.68%
High Density Residential	87.21	0.39%
Industrial	2,512.11	11.20%
Medium Density Residential	944.46	4.21%
Moderate Density Residential	2,971.21	13.25%
Public	390.31	1.74%
Recreation	376.02	1.68%
Rural Cluster	12.68	0.06%
Rural/Agriculture	524.59	2.34%

1. GIS Analysis conducted using Future Land Use Feature Layer provided by Alachua County GIS. This feature layer was last updated on April 8th, 2022, and was accessed for this analysis on April 17th, 2022. Data can be downloaded from this source: <https://www.arcgis.com/home/item.html?id=928ae3f278cf433f9c79b7cf1d40d734>

CONCLUSION

The City's population is growing. The City's various industries are expanding, spurring further population growth as workers move to the City to meet the need. As the population grows, so too does demand for goods and services—both those contributing to and those ancillary to the aforementioned major industries. This demand can be met through commercial development, which is possible via the City's Commercial FLU classifications.

There is no question that agriculture is an important industry to the City of Alachua, Alachua County, the State of Florida, and the United States. It is a stated objective for the City, in Comprehensive Plan Economic Element Objective 1.4., to maintain the community's agricultural character. Much of the City's agricultural land, including the project site and surrounding area owned by Tomoka Hills Farms, LLC, is not being utilized for agricultural purposes. These areas instead sit unutilized.

The change from Agriculture to Community Commercial proposed by this SsCPA will increase the amount of land open to commercial development in the City, allowing the City to proactively meet consumer needs through the provision of developable land, and will not challenge the City's existing agricultural character.
