The Owner, or its successors and/or assigns, shall utilize methods of minimizing impacts, such as appropriate Best Management Practices of the Suwannee River Water Management District, in order to reduce the potential for flash flooding, to avoid adverse impacts to water quality, and to incorporate existing drainage patterns to the greatest extent practicable. Upon approval from the City of Alachua and the Suwannee River Water Management District, enhancements may be permitted to the existing, natural conveyance system to mitigate for existing erosion and sedimentation, restoration of historical erosion and sedimentation damage, and preventing future adverse erosion and sedimentation.

The landscaping and buffering plan shall meet the requirements established by Section 6.2.2, *Landscaping Standards*, of the City's LDRs, or any amendments thereto. A landscape and buffering plan shall not be required if no landscaping required is required by Section 6.2.2 of the City's LDRs.
