

as an enabling resolution and a draft application for review prior to submission to the Florida Department of Economic Opportunity (DEO). The deadline for submittal is Aug. 13.

Grant options for this level CDBG application include, in addition to Housing Rehabilitation and Neighborhood Revitalization, a third category of Commercial Revitalization. The City may have only one of these grants open at any given time.

The Housing Rehabilitation category assists low and moderate income residents with physical improvements that address code, safety and other rehabilitation items. In some cases, severely damaged structures may be demolished and replaced. The minimum number of homes that should be included in this category is 10 - 15, but more could be done if funds stretch further.

The Neighborhood Revitalization category assists communities with infrastructure improvements, such as paving, fire protection, drinking water, sewer, flood and drainage, handicap accessibility in public facilities, and other similar activities. It is required that no less than 51 percent of

or commercial districts, including water, sewer, sidewalks, parking and building facades.

Both public hearings are required to ensure the public can voice opinions on the proposed application.

In order to be considered for this cycle of a Small Cities CDBG grant, a City must not only submit their grant applications on time, but also have a population under 50,000, and an eligible County must have a population under 200,000.

While the Small Cities CDBG grant can have only one grant open at a time, a local government can be awarded one new Economic Development Grant every year. There is no limit to the number of these grants that can be open at any given time, provided all grants are on schedule. In this category, a City can receive up to \$1.5 million, depending on job creation numbers.

During the same meeting, the City of Newberry Commission authorized staff to proceed with preparation of a CDBG application in the Economic Development Category should an eligible project be identified.

There is no hard deadline for application of these funds as they are awarded on a first come,
