Preface

What is Wayfinding?

Tayfinding -- literally, **finding your way** -- is all the ways people orient themselves in physical space and navigate from place to place.

Wayfinding

- is a holistic view from a visitor's perspective
- is accomplished using a system of signage, banners, or other elements to direct people to destinations
- is a thoughtful, organized approach to direct people to destinations
- provides opportunities for the City's branding

CURRENT TASK

Task 1:

Inventory & Analysis

Task 2:

Sign Types & Placement

Task 3:

Design

Wayfinding Master Plan

Task 4:

- Inventory existing wayfinding signage.
- Review existing City list of wayfinding destinations.
- Identify user groups & wayfinding challenges to new visitors
- Create recommended typology inventory for wayfinding system.
- Develop a map of recommended locations for wayfinding signs.
- Establish design principles for the wayfinding program
- Develop 3 concept design styles for each recommended sign type.
- Develop a consistent, standardized wayfinding plan for comprehensive directional signage.
- Include implementation steps.
 Include cost estimates for fabrication and installation.

Public Meeting: Idea generation workshop with CRAAB Meeting To Present Draft Plan To CRA Advisory Board Meeting To Present Draft
Plan to CRA Advisory Board
& to CRA Board

Present Final Master Plan at public open house/ CRAAB meeting

01.3 | Goals

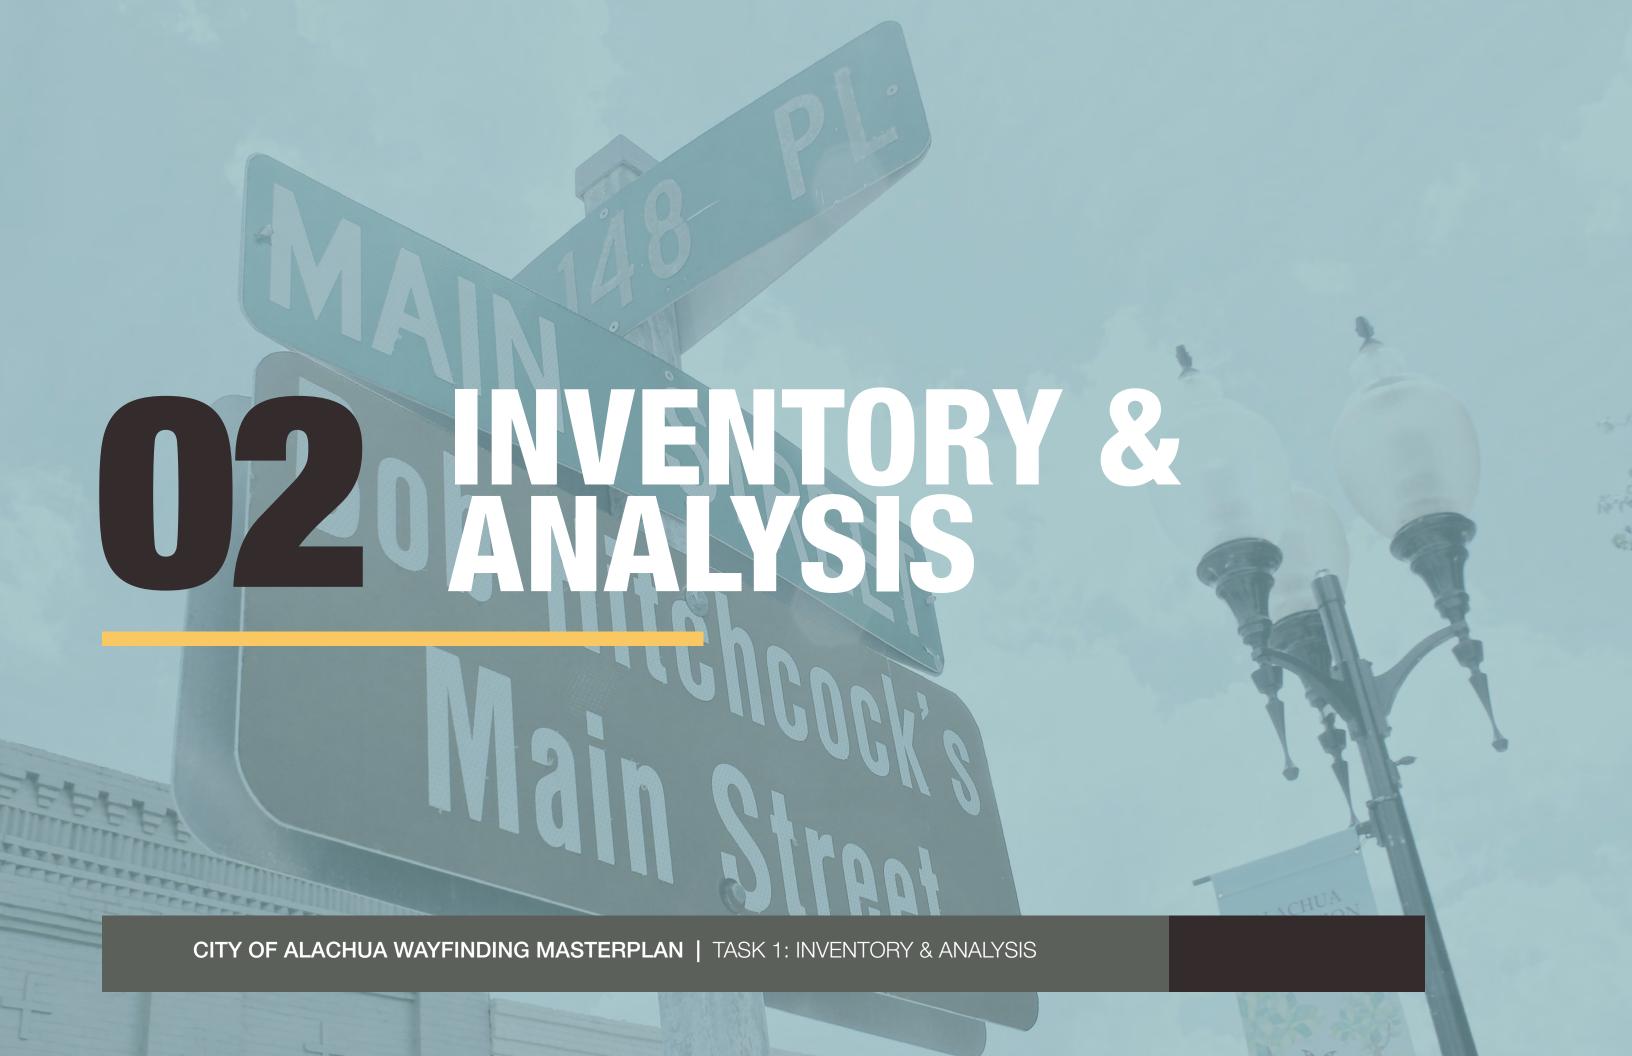

01 | INTRODUCTION

- Provide a **consistent and attractive wayfinding** system with clear information.
- Design a wayfinding system which facilitates pleasant and efficient navigation for both **vehicular and pedestrian users**.
- Utilize the wayfinding system to **direct visitors to key destinations** within the Community Redevelopment Area (CRA).
- Utilize the wayfinding system to highlight available vehicular parking.
- Develop an **easily implementable** wayfinding system.

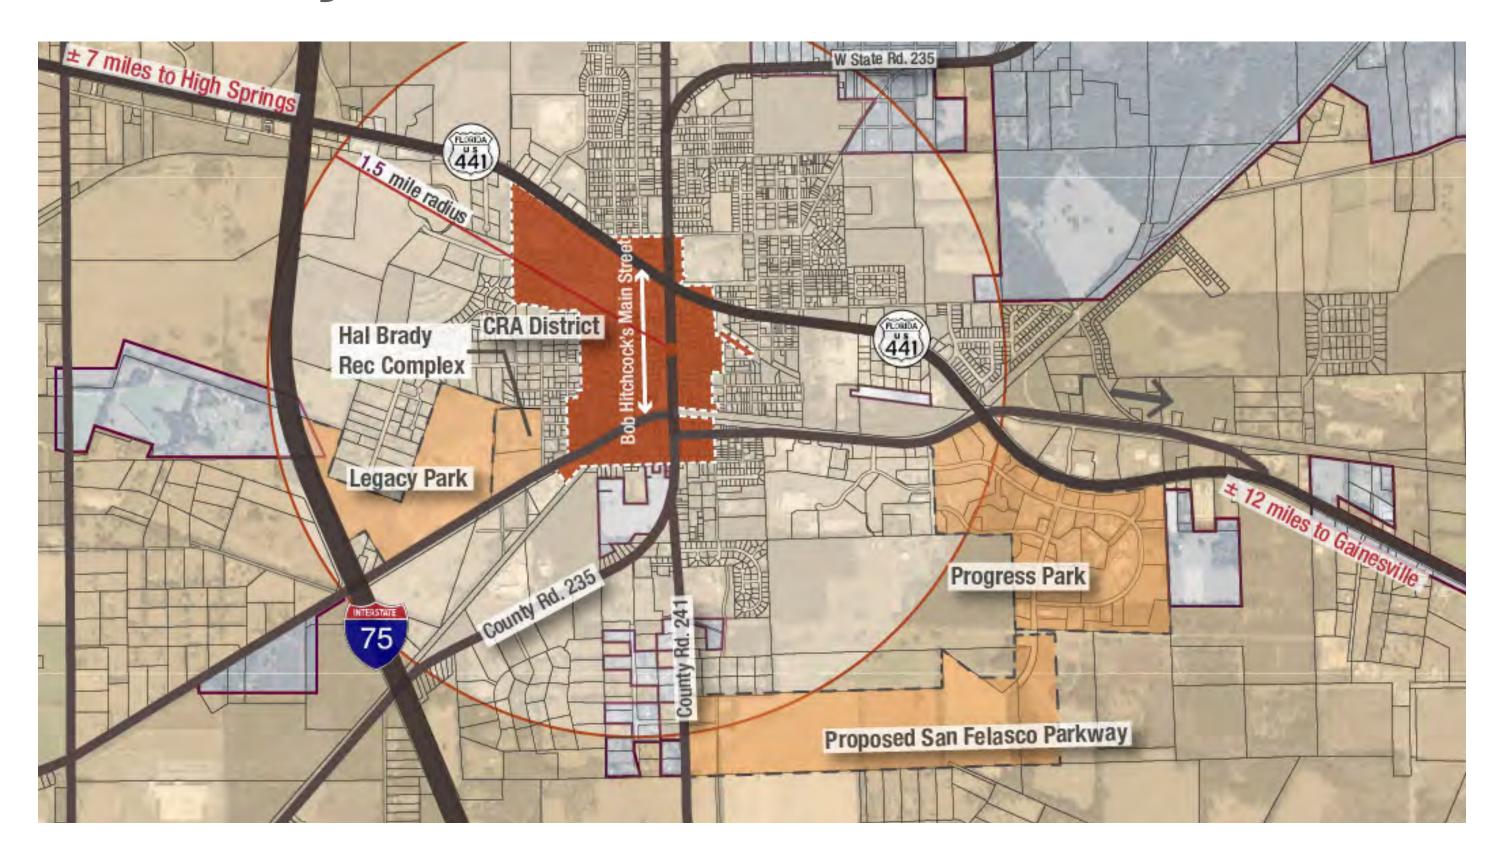

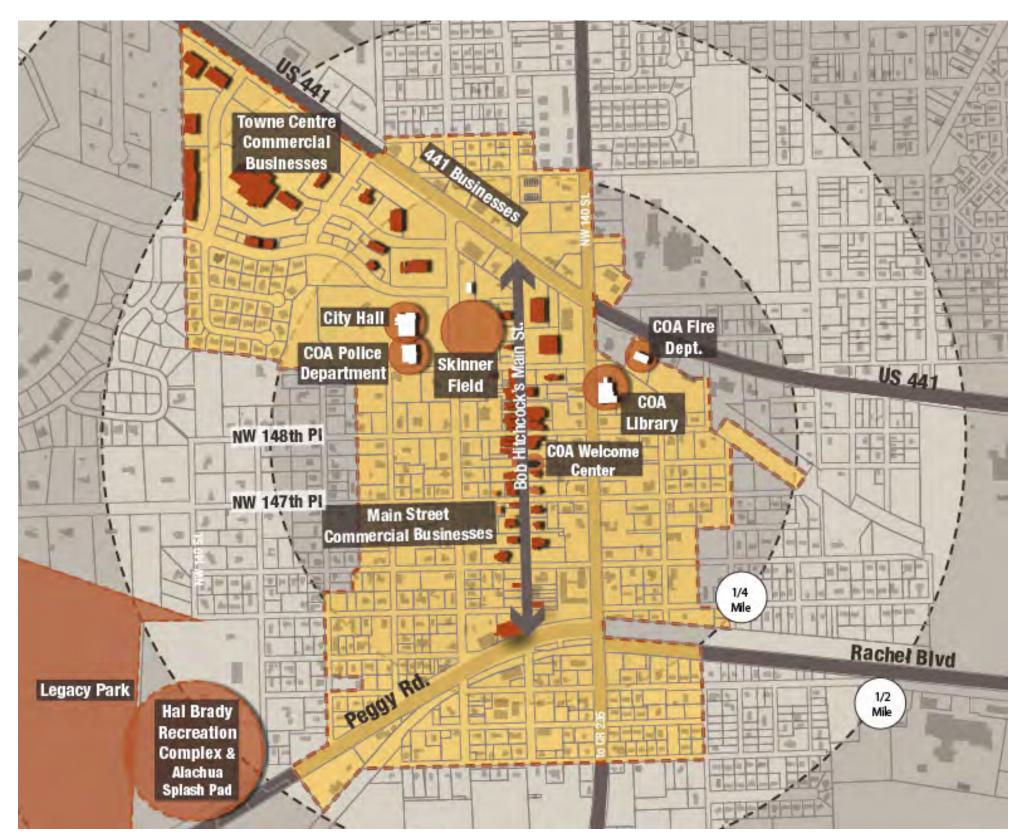

02.1 | Project Context
