Cc : Jessica Junkin <JessicaJ@chw-inc.com>

Adam, See below.

Narrative: Savannah Station seeks a minor revision to its phasing plan shown on the preliminary plat . The minor revision is to facilitation more accurate phasing and construction to best suit market conditions and local market absorption. This request presents no changes to the subdivision's design, construction, and implementation and is fully compliant with the underlying adopted Land Use and Zoning.

Correct Phase 2A-1 would go to existing Phase 1 Stormwater pond.

Thank you,

DANIEL YOUNG, P.E., LEED A.P.
