Good morning.

At our meeting, we discussed hosting a service project for SFHS. As suggested by Commissioner Miller, please email me your ideas for projects.

1. Begin looking around your school. Take note of what needs to be done.
2. Consider the cost. I'm not sure if there is a line item in your budget for a service project. It may be that you will need to raise the money for what you want to do.
3. Think about the physical activities that will need to be done to accomplish your goal. Think in terms of injuries.

Write up a thoughtful description for your projects and email them to me. Do not discuss your ideas with each other. You can talk with students who are not on the council for their input, if you wish. Do not CC the other members of the council. Remember that your emails will be public record.

Once I receive your ideas, I will contact the school for their input.

Have a great day,

LeAnne Williams, CMC
Assistant Deputy City Clerk, City of Alachua
Alachua County City Clerks Association, President
